FlipFX 3D DECORATION

Unique 3D decoration that changes between 2 different images or colors. The ability to change the image comes from lenticular technology which allows your emblem to have eye-catching effects when viewed from different angles.

Float FX 3D DECORATION

Holographic background gives a distinctive floating appearance to the logo and adds the illusion of depth. These specialized emblems have a distinct animation feel and can be used to tell the story of your brand in the most creative way.

GLOUIN THE DARK Embroidery

Glow-in-the-dark logos impart an added flair to your design. Logos that appear to be white in regular day light come to life with a vibrant neon glow in the dark.

GLOWIN THE DARK Heat Jransfer

Glow-in-the-dark logos impart an added flair to your design. Logos that appear to be white in regular day light come to life with a vibrant neon glow in the dark.

Feather APPLIQUE

The layered appliqué work overlapping the soft hand Feather-Touch imprint makes the most creative design concepts come to life with this decoration technique. The subtle contrast between the 'no-feel' Feather-Touch design and the 3-D effect of appliqué creates truly remarkable collegiate or retail-inspired looks. With many design ideas and unlimited appliqué color and materials, the possibilities are endless.

FLOCK FLOCK

Feather Flock logos are designed with a mix of our breathable Feather-Touch details and the velvet like texture of flock. This combination of 2 interesting techniques creates a striking blend of textures and an impressive vintage or lifestyle feel for your brand.

DIRECT CHENILLE

Available on custom melton-leather jackets ONLY.

Direct chenille provides the richness of specialized fuzzy chenille yarn embroidery, without the feel of a patch. Chenille yarns are directly looped through the melton jacket fabric. Embroidery borders and details are added for a clean finish and a truly customized look.

Washable CHENILLE

Available on washable garments ONLY.

Why restrict the tactile appeal of chenille patches to melton-leather jackets? Our versatile washable chenille patches can be applied to a variety of washable fleece garments to create exciting and distinctive designs.

MULTIMEDIA Decoration

Making the impossible logos possible, with the largest selection of decorating options, including felt, polyester twill and canvas appliqué, classic embroidery, yarn embroidery, classic print, distressed print, mending stitch and many more. CHENILLE

A type of embroidery made from loops of yarn, resulting in a finished design with soft, fuzzy appearance. It offers a sophisticated collegiate or high end corporate look with tactile richness that only chenille can offer.

SCREEN PRINT

Most cost effective decoration method, especially on volume orders. Low order minimums. Prints highly vibrant colours that can be accurately matched. Can utilize speciality-printing methods to achieve unique looks and feel.

Flock TRANSFER

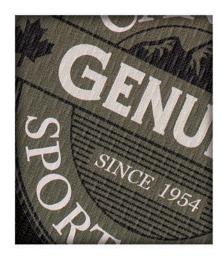

Flock transfers take your design to a whole new dimension. The faux finish and three dimensional appearance is great for adding texture to any design.

REFLECTIVE TRANSFER

Engineered to reflect light, our reflective transfers are designed to increase visibility for workers, joggers or anyone who spends time outside. We use premium quality 3M reflective transfers.

#EAT TRANSFER

Canada Sportswear offers heat transfer solutions for your logo or unique design. This digital printing process utilizes high temperature to transfer and adhere your design to the fabric surface.

Seamless transfers are designed to eliminate excess printed area or key-line surrounding a complex logo. Whether it's detailed text or complex graphics, seamless transfers can be used to achieve a clean look with perfectly weeded out transfers.

TRANSFER

Engineered to block dye migration, these transfers have a matte-finish and a thick silicone feel. Silicone transfers are stretchable, with good recovery and are excellent for athletic and performance apparel.

HIGH DENSITY

These premium quality stretchable transfers have a rich silicone surface and a raised 3-dimensional appearance, available in solid colors and reflective finish.

Accent EDGE

NEW multi-layered high density silicone transfers have a contrast color layer under the top layer, creating a unique and subtle accent, visible along the edges of the logo.

TEXTURE Blend

A versatile blend of textures within one logo is what makes this decoration richly impactful. Blend options include 3D-faux finish, glossy or matte flat finish and reflective finish. To see how Texture Blend can work with your logo, please send us your artwork and let our design team create a unique look.

Feather TOUCH®

Feather Touch is a breathable decoration developed in-house by Canada Sportswear. The imprint is infused into the fabric without affecting it's natural texture. You only feel the fabric, not the print, creating a lightweight and comfortable feel

E 3D DECORATION

Introducing, a highly specialized 3D branding technique, developed inhouse by Canada Sportswear. A striking combination of highly amplified 'Emboss' and detailed 'Print' creates an impactful retail inspired look.

EMBOSS / DEBOSS

This decoration process creates raised (embossed) or sunken (debossed) designs on the fabric surface. Both of these decorative effects work well with leather garments. But why stop there? Canada Sportswear also offers premium emboss or deboss options for many of our other fabrications.

A process that uses laser technology to engrave or burn a mark into the fabric. This technique is perfect for our micro fleece, softshell and performance polyester fabrics.
